"The Tech-Wise Family"

by Andy Crouch

Making conscientious choices about technology in our families is more than just using internet filters and determining screen time limits for our children. It's about developing wisdom, character, and courage in the way we use digital media rather than accepting technology's promises of ease, instant gratification, and the world's knowledge at our fingertips. And it's definitely not just about the kids.

Every year we provide a prayer room experience for our students. This night is dedicated to having the students walk through multiple prayer stations each guiding them through prayer exercises. This year's prayer room will focus on praying for their school campus.

"The Thread"

This will help students discover the life-changing narrative of the Bible, from Genesis to Revelation. But most importantly, show them how the thread of the Gospel is woven through every story.

Monday Night 7-9 PM

"Even If" -- We live in crazy times, Students are constantly faced with terrifying things and challenging situations.
